

THE ONE CONFERENCE  
YOU WILL WANT TO ATTEND

# Long Term Care Options Conference—Winnebago County

*for adults with disabilities and elderly needing care and their families*

Beginning July 1, 2010, Winnebago County residents who are eligible for publicly funded long term care services will experience a change in how those services are provided. Prior to that date, you will need to make a choice between IRIS and Family Care. Figuring out the new long term care system can be confusing. It is difficult to understand the changes, to know your options, and to make a decision about what will work best for you. To help clear the clutter, answer your unanswered questions, and help you compare the two programs “apples-to-apples,” we have put together a free one-day options conference. You will get:

- Side-by-side explanations of IRIS (Include, Respect, I Self-direct) and Lakeland Care District (Family Care);
- Understanding of how self-directed services work within both systems;
- Panel of families who have experienced both systems;
- Insight into how the Interdisciplinary Team (IDT) works and how the Resource Allocation Decision (RAD) is used in Family Care;
- Insight into how the Independent Consultant (IC) and Financial Services Agency (FSA) work in IRIS;
- Understanding your rights and responsibilities, and how to advocate for yourself in the new system;
- Question and Answer time for representatives from IRIS and Lakeland Care District;
- All that, plus lunch!

**Saturday, March 13, 2010, 8:30 am-3:45 pm**  
Conference Rooms A&B of Mercy Medical Center  
500 S. Oakwood Rd., Oshkosh

**SPACE IS VERY LIMITED—SIGN UP TODAY**
